

# SACHIRA MADHUSHAN

FINAL YEAR COMPUTER SCIENCE STUDENT

## PROFILE

As a final-year computer science student with over five years of experience in the IT industry, I've honed my skills across various development domains, including web, mobile, desktop applications, and game development. Alongside my technical expertise, I've developed strong teamwork and leadership abilities, successfully leading teams to deliver impactful projects. For a comprehensive overview of my projects, certifications, and work experience, please visit my LinkedIn and Github profiles. Below are just a few highlights.

## PROJECT EXPERIENCE

### Blood Me 2024 - PRESENT

Black Pixel PVT LTD

- Currently, I'm developing an innovative mobile application called Blood Me in Startup Company. It's selected as one of the best 50 innovative products in Sri Lanka in Dialog Innovation Nation.
